doesn't look like redline strike out went through. I rewrote as we'd say the third bullet and added state's in the 4th bullet. Sorry.

Thanks, edits to the FL assumption bullet are here. Note: I just conferred with Tom McGill on these edits. The bullet that was added by R4 was inaccurate, Tom and I have kept the intent but ensured accuracy with the statute and where we are in the processes with our edits to the third bullet. Thanks for the call Katherine. - Kathy

FL Clean Water Act Section 404 Assumption:

Ex. 5 Deliberative Process (DP)

Subject: Quick Review: FL Water Issues / OA talking points

Folks,

Are we ok with the Region 4 write-up on assumption?

Katherine

Subject: RE: FL Water Issues

Hi Allison,

Please note the minor update to the 404 Assumption information (yellow highlight).

Thanks,

Brandi

Subject: FL Water Issues

Allison: here is what we pulled together. The bullets under Water Infrastructure, Infrastructure Concerns and WOTUS, are from HQ, with the exception of the 2 highlighted Florida-specific bullets I added to the Water Infrastructure section. Please let me know if you have any questions.

Thanks

Allison Wise, Director

Office of Government Relations

Perfect. If you don't mind sharing what you put together on FL/404, I'd love to share that with our program and Dave to review tonight. We will stand down on Lake O.

Allison,

It was received by our OCIR staff (a separate office here in the region). They're in coordination with our water program and hope to have responses completed by early afternoon today.

Always good to speaking with you, Larry.

See the AO ask below. If you received the ask on Lake Okeechobee, then we will stand down on that one. Otherwise, if I'm happy to send along whatever you put together on that issue. Re: FL 404 Assumption, I pasted some generals TPs that we sent to the AO last week on our 404 program but they aren't specific to FL, which is where I will need your help.

We'll take this one. We'll also cross check with R4 to make sure we're on the same page for the OW/R4 issue. Thanks.
